

# Bonastar MinisPro

## It's Small, Smart & Soft

**Created for the Fashionable eyeglass wearers who do not want to compromise on style and quality**

- Small     Bonastar MinisPro is a perfect soft, short corridor progressive lens on the market, enabling an easy transition between the far vision zone and the reading zone
  
- Even smaller     MinisPro is recommended a fitting height of 16mm, it fits into any small frame
  
- Smart     Bonastar MinisPro ensures improved peripheral vision because it is designed through an exact simulation of the eyes
  
- Even smarter     MinisPro guarantees perfect binocular vision, enabling patients to clearly perceive an object's depth and dimension
  
- Soft     Bonastar MinisPro ensures Eye-Point Technology, the softest lens design for every vision zone
  
- Even softer     MinisPro is Aspheric in all its vision zones, it is the thinnest possible lens

Bonastar MinisPro is the ultimate precision engineered, short corridor progressive lens for accurate. Individualized design for every angle, every vision zone and every prescription. Your patients will immediately sense the difference.
